

Workshop Program
“Better Rice, Better Environment and Better Life”
7 September 2007, Venue: CLRRI

6 September 2007 (Thursday)

1800	Official Conference Dinner to mark CLRRI 30 th Anniversary
------	---

7 September 2007 (Friday)

0800-0830	Registration	CLRRI Secretaries
0830-1000	Opening ceremony	
0830-0840	Introductory speech	Le Van Banh, DG CLRRI
0840-0900	Welcome speech	Bui Ba Bong, Vice Minister, MARD
0900-0920	Medal Awarding ceremony	
0920-0950	Keynote address I: Rice conventional and molecular breeding at CLRRI in the last 30 years	Bui Chi Buu, DG, IAS
0950-1010	Keynote address II: Achieving Food Security for Asia: The Role of Rice Research”?	Robert Zeigler, DG, IRRI
1010-1030	Coffee break ----- Picture taking	
1030-1230	Session I: Crop improvements for better yield and quality	
1030-1045	Improvement of rice varieties via transgenic approaches at CLRRI	Tran Thi Cuc Hoa, CLRRI
1045-1100	Development and dissemination of salt tolerant varieties and associated management options in salt affected areas of the Mekong Delta	A. Ismail, IRRI
1100-1115	Genomics-based strategies for developing rice in Vietnam	Nguyen Thi Lang, CLRRI
1115-1130	Development and deployment of submergence tolerant varieties	D Mackill, IRRI
1130-1145	Opportunity and constraints for the production of aromatic and high quality rice in Vietnam	Gay Frederic, CIRAD
1145-1200	Mutation induction combining with others techniques to breed new rice varieties	Do Khac Thinh, IAS
1200-1215	Maintaining quality grain in a warming world	M Fitzgerald, IRRI
1215-1230	Vietnam—IRRI collaboration in rice varietal improvement	D Brar, IRRI
1230-1330	Lunch	
1330-1545	Session II: Managing rice production for environmental sustainability	
1330-1345	Salinity intrusion affecting rice production in the coastal area of the Mekong Delta	A. Kotera, NIAES
1345-1400	Applying integrated management solutions to	Pham Van Chuong,

	improve rice yield in Northern Central Vietnam	ASINCV
1400-1415	Improving resource management in the intensive system	A. Dobermann, IRRI
1415-1430	Preliminary results of ICM application on rice in Northern Vietnam	Nguyen Cong Vinh, NISF
1430-1445	Effects of <i>Gluconacetobacter diazotrophicus</i> and <i>Pseudomonas syringae</i> on high-yielding rice cultivated on the alluvial soils of the Mekong Delta	Cao Ngoc Diep, CTU
1445-1500	Yellowing syndrome of rice: Etiology, current status and future challenges	Pham Van Du, CLRRI
1500-1515	Natural Resource Management Research in Vietnam and the Irrigated Rice Research Consortium	Grant Singleton, IRRI
1515-1530	<i>Coffee</i>	
1530-1545	A viewpoint considering BPH as a factor to adjust the cropping patterns of rice production in the Mekong Delta of Vietnam	Nguyen Van Huynh, CTU
1545-1600	An initial method in using of GIS (geographic Information System) in early warning the potential risk of Brown backed rice plant hopper (<i>Nilaparvata lugens</i>), in Trung An village, Thot Not district, Cantho City	Vo Quang Minh, CTU
1600-1800	Session III: Improving rice farmers' livelihoods for better lives	
1600-1615	Supply Response of Rice in Vietnam	Vo Thanh Danh, CTU
1615-1630	Performance of Glutinous Rice Marketing System in Mekong Delta, Vietnam	Nguyen Kim Hanh, IAS
1630-1645	Impact of migration on women rice farming and appropriate technologies in Vietnam	Truong Thi Ngoc Chi, CLRRI
1645-1700	Entertainment-Education: An Innovative Approach for Communicating Pest Management to Rice Farmers in Vietnam.	Nguyen Huu Huan, PPD
1700-1715	Mekong Delta's Rice Farmers: from Growers to Breeders	Tran Thanh Be, MDI, CTU
1715-1730	Rice production in the mountainous areas of Northern Vietnam: current status and future orientation	Ha Dinh Tuan, NOMAFSI
1730-1745	Transition of labor force and their employments in sub-urban areas of Cantho city: Potential and challenge	Duong Ngoc Thanh, MDI, CTU
1745-1800	Constraints faced by different stakeholders and their strategic suggestions for promoting rice production and export	Nguyen Cong Thanh, CLRRI
